CAT® Reman

Cat Reman Main Pumps for 6060 Hydraulic Mining Shovels

Because Cat Reman is in the business of returning end-of-life components to same-as-new conditions, we reduce waste and minimize the need for raw material to produce new parts. Through remanufacturing, we make one of the greatest contributions to sustainable development—keeping nonrenewable resources in circulation for multiple lifetimes.

Quality remanufacturing process

Cat Reman Pumps are built to the same performance standards as new Cat pumps, and remanufacturing processes are strict to help ensure same-as-new quality.

- Shafts are polished and remanufactured or replaced with new.
- All pumps are updated with the latest design upgrades and tested for leaks to help ensure dependability, output, and longer life.

Core acceptance criteria

Core Acceptance Criteria for Hydraulic Piston Pump and Motor's is simple, visual and requires no special tools. To receive a full core refund, Hydraulic Piston Pump and Motor's core must meet these criteria:

- Acceptable Caterpillar part number
- Fully assembled and complete with no visibly cracked or broken housings or pulleys
- No non-operational damage (mishandling, excessive rust, pitting, or corrosion)
