THE RIGHT UNDERCARRIAGE **TO DO THE WORK**

Uptime starts down here

As the only manufacturer to design and build our own undercarriages for the past 110 years, **we know that the more precisely you match iron to application, the more effective and efficient your work will be.** And that builds a stronger bottom line.

ASK MORE
FROM YOUR UNDERCARRIAGE

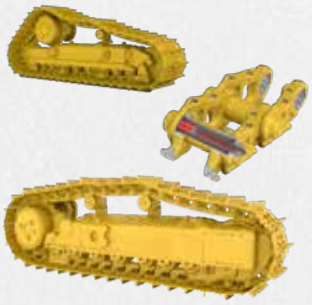

BY CHOOSING A CAT® UNDERCARRIAGE, YOU ARE SETTING YOURSELF UP FOR SUCCESS.
Every CAT Undercarriage is built to wear as a system, to optimize the overall performance of your CAT dozer.

	GENERAL DUTY	HEAVY DUTY	HEAVY DUTY EXTENDED LIFE (HDXL)	CAT® ABRASION™
WHERE IT SHOULD WORK	General, light-duty applications with low-to-moderate impact conditions	Tough job applications where maximum durability is key	All applications, including Forestry and Waste, needing production in medium-to-high impact conditions	Applications with high abrasion and low-to-moderate impact conditions
TYPE OF JOB	Utility	Production	Production	Production
HOW IT IS MANUFACTURED*	Cat specifications met	Cat specification met within tight tolerances	Cat specification met within tight tolerances	Cat specifications met within tight tolerances
TYPE OF MAINTENACE	Bushing turn capable, not guaranteed	Bushing turn capable, wet turn guaranteed	Bushing turn capable, wet turn guaranteed	Not required due to design
ABILITY TO REBUILD OR REUSE	Designed to run to destruction	Idlers can be reused or rebuilt	Idlers can be reused or rebuilt	Idlers and segments can be reused

*Manufacturing requirements include grade of material, heat treatment, form, fit, function and dimensional accuracy.

General Duty Track – STTT* & MTTT*

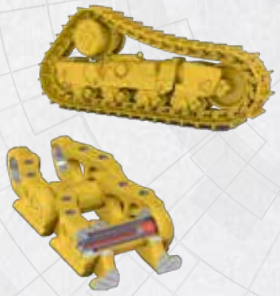

General duty undercarriage with proven reliability when performing low-to-moderate impact applications. With parts that are interchangeable with Heavy Duty, no retrofitting is needed and downtime is kept to a minimum.

+ Compatible with Heavy Duty
+ Caterpillar designed and produced
+ Available for D5–D8

General Duty Track – LTTT*

General duty undercarriage with proven reliability when performing low-to-moderate impact applications. With parts that are interchangeable with Heavy Duty, no retrofitting is needed and downtime is kept to a minimum.

+ Compatible with Heavy Duty
+ All the benefits of Cat System
+ Positive Pin Retention (PPR)
+ Bushing turn capability
+ Available for D9-D11

Heavy Duty XL track – STTT & MTTT

Takes proven Heavy Duty undercarriage to the next level with exceptional wear life and lower cost per hour than competitive brands in tough applications. Tackles the most rigorous terrain and extreme applications without fear of breakage.

+ 25-40% longer life compared to Heavy Duty (HD)
+ Tougher upgraded links for added performance and durability
+ New Positive Pin Retention 2 (PPR2)
+ Available for D5-D8

Heavy Duty (HD) track – LTTT

The Heavy Duty undercarriage with PPR (Positive Pin Retention) reduces end play movement and tightly controls seal motion for long interval pin/bushing wear life, providing industry leading performance.

+ Up to 25% longer life compared to General Duty (GD)
+ 15–30% lower operating costs compared to General Duty (GD)
+ Industry-leading Performance
+ Pin and bushing coatings for longer seal life
+ Available for D9–D11

Abrasion – STTT & MTTT

Leads the industry in lowest cost per hour with longer wear life and reduced maintenance. Operate in highly abrasive conditions while getting the performance you need with our improved XL coating technology doubling seal life.

+ 35 -70% lower operating costs
+ Up to 50% longer life compared to Heavy Duty
+ Improved operator comfort & grading
+ 6000 Hr intervention free undercarriage
+ No bushing turns required
+ Available for D1–D7

Heavy Duty Extended Life with DuraLinkTM Track – LTTT

Takes proven Heavy Duty undercarriage to the next level with exceptional wear life and lower cost per hour than competitive brands in tough applications. Tackle the most rigorous terrain and extreme applications without fear of breakage.

Crowned Duralink™ resists scalloping and delivers a smoother ride

+ Designed for increased uptime, longer service life and reduced maintenance
+ 25-40% longer life compared to Heavy Duty (HD)
+ XL coating for the longest seal life
+ Balanced undercarriage life
+ Available for D9–D11
