

**SPECIFICATIONS** 

MAN-DOWN VNA TRUCKS 48V, 1.25 - 1.5 TONNES

# CUT COSTS AND RACK UP EFFICIENCY WITH TWO TRUCKS IN ONE

THIS SOLUTION COMBINES THE STORAGE-MAXIMISING EFFICIENCY OF A VNA (VERY NARROW AISLE) TURRET TRUCK WITH THE FREEDOM AND VERSATILITY OF A REACH TRUCK. IT NOT ONLY OPTIMISES PRODUCTIVITY IN THE AISLES BUT RAPIDLY TRANSPORTS GOODS TO AND FROM THE RACKING.

There is now no need for feeder trucks or P&D (pick-up and deposit) stations at aisle ends, as our man-down VNA models take care of transport as well as stacking and retrieval. This saves on fleet size, driver numbers and time, while increasing storage space.

Wire or rail guidance\* allows the operator to drive quickly, and to lift and lower safely while travelling, in aisles little wider than the truck. Pallets can be handled on either side of the aisle thanks to a swivelling reach fork assembly.

\* Image shows angled rollers for 'low profile' rail guidance, available through CSM.

Precise control is assured by *Palm Steering* and a multifunctional joystick. The left and right armrests are adjustable, along with floor height, for a perfect fit. The weight-adjusted seat gives a relaxed driving position and tilts to reduce strain when viewing loads at height.

Output is enhanced by market-leading drive and hydraulic performance, together with superior ergonomics and an excellent all-round view. The wide range of optional aids includes a position light laser system and a fork camera with RLED display.

### **LOWER COST OF OWNERSHIP**

- Robust construction minimises damage and wear, even in demanding multi-shift operations.
- Heavy duty drive wheel is highly durable and easy to maintain, with a larger diameter, extra width and unique tread design which increase grip and stability as well as lifetime.
- User-friendly display and onboard diagnostics encourage correct use of truck and speed up maintenance.
- PIN code identification and programmability prevent unauthorised use and allow matching of truck performance settings to driver experience and application.
- Auto log-off option avoids wasting power when truck is idle.
- Fast service access to systems and components reduces downtime.

### **UNMATCHED PRODUCTIVITY**

- Compact dimensions and reach truck levels of mobility enable fast manoeuvring outside the aisles, for rapid transport of goods to and from the VNA racking with no need for feeder trucks or P&D stations.
- Swivel fork assembly rotates through 180 degrees, allowing pallet stacking and retrieval on either side of the aisle without turning the truck around.
- Wire guidance option permits fast performance in very narrow aisles, including safe lifting while driving, without the obstruction, debris accumulation and relatively high installation expense of guide rails.
- Rail guidance option permits fast performance in even narrower aisles, including safe lifting while driving, without the power supply dependency and electronic sensor expense of wire guidance.
- 360-degree steering option enables fluid turning without stopping to change direction.
- Market-leading travel speed (14 km/h) and optimised hydraulic attachment speed come as standard.

### **SAFETY AND ERGONOMICS**

- *Palm Steering* on adjustable floating armrest offers relaxed driving position and operation with minimal movement, effort or strain ideal if driver is seated for long periods.
- Multifunctional joystick with adjustable armrest fits hand perfectly, positions all hydraulic controls
  optimally, minimises effort and enables precise individual and simultaneous actions.
- Optional fingertip hydraulic controls with adjustable armrest ensure ergonomically perfect hand positioning, anatomical support and free movement.
- Position light option aligns red laser beam with rack markings for quick and accurate fork positioning in relation to pallets.
- End-of-aisle braking system option prevents full-speed exit into transfer aisles, where other trucks and pedestrians could be passing.
- Automatic drive speed control slows truck down if forks are raised above 500 mm outside the guided aisle, to increase stability for manoeuvring while transporting loads.
- Electrically adjustable floor height combines with adjustment of armrests and seat to give the perfect fit for each driver.
- Tilting seat can be angled backwards by 18 degrees, to reduce strain when viewing and handling loads at height, and is adapted to the driver's weight.
- Tapered seat backrest enables easier turning of body with less strain toward driving direction.
- Spacious driver's compartment with high roof safely and comfortably accommodates users of all sizes.
- Excellent all-round view is enabled by design of mast, overhead bars, pillars and chassis.
- Mast-mounted mirrors give full visibility of fork tips when handling pallets at lowest levels.
- Transparent overhead guard roof option gives unobstructed view of forks and load when handling at height and protects driver from both small and large falling objects.
- Intuitive display keeps drivers fully informed and is optimally positioned and angled for clear viewing.
- Direction control is switched using accelerator pedal, leaving right hand free to concentrate on hydraulic functions.
- Automotive pedal layout is intuitive to car drivers, while 'dead man' safety switch is effortlessly activated by the weight of the left foot.
- Smooth entry and exit are aided by ergonomic grab handles and low intermediate step with non-slip surface.
- Optional blue or red point safety lights warn pedestrians and other drivers of truck's approach.

4.34	Working aisle width (Ast) with 800 x 1200 mm pallets, load lengthwise	Ast	(mm)	1640 1)	1640 ¹)
4.35	Turning radius	Wa	(mm)	1753 1)	1753 1)
4.37	Truck length including support legs	17	(mm)	1866 <sup>1)</sup>	1866 <sup>1)</sup>
4.41	Transfer aisle width (pallet 1000 x 1200 mm lengthwise & 200 mm clearance)	Au	(mm)	3700 1)	3700 1)
	Performance				
5.1	Travel speed, with / without load		km/h	12 <sup>2)</sup>	12 <sup>2)</sup>
5.2	Lifting speed, with / without load		m/s	0.38 / 0.47	0.34 / 0.47
5.3	Lowering speed, with / without load		m/s	0.57 / 0.54	0.57 / 0.54
5.7	Gradeability, with / without load		%	4.9 / 5.8	4.7 / 5.8
5.8	Maximum gradeability with / without load		%	10.4 / 12.3	10.4 / 12.3
5.9	Acceleration time (10 metres) with / without load		S	6.5 / 5.5	6.0 / 5.5
5.10	Service brake			Electric	Electric
	Electric motors				
6.1	Drive motor capacity (60 min. short duty)		kW	7.2	7.2
6.2	Lift motor output at 15% duty factor		kW	15	15
6.3	Battery to DIN			43531C	43531C
6.4	Battery voltage/capacity at 5-hour discharge		V / Ah	48 / 620 - 930	48 / 620 - 930
6.5	Battery weight		kg	1240 - 1567	1240 - 1567
	Miscellaneous				
8.1	Type of drive control			Electronic	Electronic
10.1	Maximum operating pressure for attachments		bar	150	150
10.2	Oil flow for attachments		I / min	15	15
10.7	Level of noise at the ear level of the driver according to EN 12 053:2001 and EN ISO 4871 in work LpAZ		dB (A)	62.1	62.1

For Wire Guided and Rail Guided values see table on next page.

Value dependent on guidance system used.
 See table on next page for Wire Guidance and Rail Guidance values.
 Unguided mode.

### **Wire Guidance**

	Dimensions			NTD13N3	NTD15N3
4.19	Overall length	l1	(mm)	3116	3116
4.33	Working aisle width (Ast) with 1000 x 1200 mm pallets, load crosswise	Ast	(mm)	1700	1700
4.34	Working aisle width (Ast) with 800 x 1200 mm pallets, load lengthwise	Ast	(mm)	1700	1700
4.35	Turning radius	Wa	(mm)	1858	1858
4.37	Truck length including support legs	17	(mm)	1972	1972
4.41	Transfer aisle width (pallet 1000 x 1200 mm lengthwise & 200 mm clearance)	Au	(mm)	4200	4200
	Performance				
5.1	Travel speed, with / without load		km / h	9	9

### **Rail Guidance**

	Dimensions		
4.19	Overall length	11	(mm)
4.31	Ground clearance (lowest point)	m1	(mm)
4.32	Ground clearance at centre of wheelbase (forks lowered)	m2	(mm)
4.33	Working aisle width (Ast) with 1000 x 1200 mm pallets, load crosswise	Ast	(mm)
4.34	Working aisle width (Ast) with 800 x 1200 mm pallets, load lengthwise	Ast	(mm)
4.35	Turning radius	Wa	(mm)
4.37	Truck length including support legs	17	(mm)
4.41	Transfer aisle width (pallet 1000 x 1200 mm lengthwise & 200 mm clearance)	Au	(mm)
	Performance		
5.1	Travel speed, with / without load		km / h
